## EXPERIENCE

### Online Art Gallery Platform

#### Personal Project | Next.js, Prisma, MySQL, Chapa API

- Developed a full-stack platform allowing artists to upload and sell their artwork
- Integrated Chapa for payment processing and built role-based dashboards for artists and customers
- Used Prisma ORM with MySQL for secure, scalable data management

### Game Discovery App

#### Personal Project | React.js, RAWG API, Zustand, Tailwind CSS

- Built a modern web app to browse video games using the RAWG API
- Implemented scroll animations using Framer Motion and game detail pages with videos and screenshots
- Responsive UI and dynamic routing for improved user experience

---

## EDUCATION
